[Docket No. CP00-59-000]

Petal Gas Storage Company; Notice of Application

January 6, 2000.

Take notice that on December 28, 1999, Petal Gas Storage Company (Petal), 229 Milam Street, Shreveport, Louisiana 71101, filed in Docket No. CP00-59-000 an application pursuant to Section 7 of the Natural Gas Act (NGA), for a certificate of public convenience and necessity authorizing Petal to construct, install, own, operate, and maintain certain storage, pipeline, compression, and appurtenant facilities in Forrest, Jones, Jasper, and Clarke

Counties, Mississippi all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may be viewed at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Any questions regarding the application should be directed to Mr. David Hayden, Petal Gas Storage Company, 229 Milam Street, Shreveport, Louisiana 71101 or call (318) 677-5511.

Petal seeks to construct pipeline facilities necessary to interconnect its existing storage facilities with Southern Natural Gas Company (SONAT), near Enterprise, Mississippi and to increase the deliverability of Petal's storage facilities. Specifically, Petal proposes to construct, own, and operate:

(1) 5.5 miles of 36-inch diameter, storage header loop that will loop Petal's existing 5.5 mile, 20-inch diameter storage header;

(2) A new compressor station, consisting of four units totaling 20,000 horsepower, adjacent to the existing compressor units and equipment including valves and appurtenant flowlines at the Petal storage facility;

(3) 58.7 miles of new bi-directional 36-inch diameter pipeline extending from the terminus of the proposed 36-inch diameter header loop to a site adjacent to Destin's meter station;

(4) A new 15,590 horsepower, four unit compressor station on the proposed line near Heidelberg, Mississippi;

(5) Three new metering facilities at proposed interconnects with Transcontinental Gas Pipe Line Corporation, Southern Natural Gas Company, and Destin;

(6) Bi-directional pig traps at the Petal storage facility and the proposed Destin meter station; and

(7) Mainline block valves at seven points along the new header loop and along the new pipeline facility.

Petal estimates that the pipeline facilities (exclusive of those related to the storage facility) will cost \$72,373,005 and proposes to finance the cost of the facilities through a combination of existing cash, or cash equivalent instruments on hand, internally generated funds, and debt issued by the parent company. Petal proposes an in-service date of May 31, 2001 for the facilities.

Petal requests that the Commission approve initial cost-of-service rates, and terms and conditions of services, for firm and interruptible transportation services over the new 64.2 mile, 36-inch diameter pipeline. Petal also seeks negotiated rate authority for services over the proposed 64.2 mile pipeline.

Petal says it intends to continue charging market-based rates for storage services and does not seek any changes in its current authorization to charge market-based rates.

Petal also seeks approval of certain pro-forma changes and additions to Volume 1, Part A of its effective FERC tariff that are required to conform the tariff with firm storage services Petal will be providing over the proposed facilities. Petal intends that the changes will become effective upon the in-service date of the facilities. Additionally, Petal requests certain waivers of the Commission's regulations.

Any person desiring to participate in the hearing process or to make any protest with reference to said application should on or before January 27, 2000, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The Commission's rules require that protestors provide copies of their protests to the party or parties directly involved. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by every one of the intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must submit copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to
